WELLS FARGO Business Banking

Clover Go

Quick Start Guide

What's in the box

Visit and save Wells Fargo's Merchant Services page for help with device setup, FAQs, and links to account management tools.

1. **Activate your account** at **clover.com/login** using the email address you used to open your account and create a password to login.

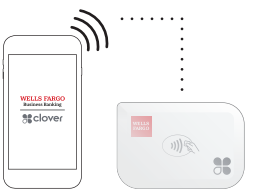

2. **Connect to power** to charge the reader.

May require an adapter

3. **Download** the Clover app and log into your account.

4. In the Clover app, go to **Home > More > Card Reader** to pair with your phone or tablet.

Status indicator lights
Lights indicate battery, pairing, and payment status.

- Charging
- Fully charged
- Ready to pair
- Paired
- Insert card or tap contactless
- Critically low battery

The reader is ready to pair or take payments when it is charging or powered on and fully charged.

To conserve battery, status indicator lights may not appear.

Clover software plans vary by solution and are billed directly to the merchant by Clover. Each Clover account supports only one software plan across all devices. Additional hardware or accessories may incur separate fees. Clover software, including applications and third-party offerings available through Clover or the Clover App Market, are subject to the respective developer's terms, and may include additional fees. All fees are subject to change. Existing merchants can view their current software plan and pricing through the Clover dashboard.

Clover solutions are offered by Wells Fargo Bank, N.A., which does not provide, and is not responsible for, third-party software or applications, including those offered by Clover.

The Clover® name and logo are registered trademarks owned by Clover Network, LLC, and are registered or used in the U.S. or many foreign countries.

The Contactless Symbol and Contactless Indicator are trademarks owned by and used with permission of EMVCo, LLC.

EMV® is a registered trademark in the U.S. and other countries and an unregistered trademark elsewhere. The EMV trademark is owned by EMVCo, LLC.

Federal Communication Commission Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Radiation Exposure Statement:
The product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Waste Electrical and Electronic Equipment-WEEE
NOTE: This product is covered electronic equipment under the European Union's Waste from Electrical and Electronic Equipment ("WEEE") Directive (2012/19/EU). The WEEE Directive requires that covered equipment be collected and managed separately from typical household waste in all EU member states. Please follow the guidance of your local environmental authority or ask the show where you purchased the product for collection or recycling options.
